Kit Type	Description	Status	Days to Expiration	Accession Number	Order more
T-1	Cycle 2 Day 1	On Site	340	124567890	Add to order
T-1	Cycle 2 Day 1	On Site	340		Add to order

Faster ordering. Fewer steps

- New integrated & embedded kit ordering system - reducing data entry by nearly 75%
- Monitor your complete supply journey in a single view, from order through delivery
- Track inventory levels, kit status, and expiry dates in real time

Greater efficiency, accuracy, and accountability

A smoother supply management experience:

- A single view that provides insights while minimizing disruption
 - Smarter inventory accuracy stemmed from new system integration
 - Inventory management that helps reduce kit waste and supports sustainability
 - Real-time supply visibility that delivers transparency for better supply tracking
-

See how unified supply visibility supports better site performance.
