

Fort Worth, TX

Labcorp's Rapid Response Test Menu for Fort Worth, TX

Labcorp recognizes the evolving healthcare needs of physicians; simply put, certain test information is essential to help make immediate, informed decisions about a patient's care. Labcorp's goal is to provide you with STAT results within four hours of your request for pick up.

The following steps will help Labcorp process your patient's lab work when it arrives at the testing site:

- Verify that the STAT test(s) request is/are available on the STAT Test Menu and that the request is within the STAT hours of operation (see reverse).
- Label all specimens with two identifiers (patient's name, date of birth, and/or test request form ID label). Time of collection is required information on the test request form.
- If routine, non-STAT testing is needed in addition to the STAT test(s), collect separate specimens for the routine and STAT testing and submit each on a separate test request form. The non-STAT specimen cannot be picked up with the STAT specimens and will be picked up and tested according to our usual, non-STAT schedule.
- Call the Labcorp direct toll-free number for STAT pick-up service at 1-866-STATTWO (1-866-782-8896) and be prepared to provide:
 - Caller name;
 - Account's name and number;
 - Pick-up address;
 - Requisition or control number;
 - Patient's name and date of birth;
 - STAT test name/number(s);
 - Storage requirements (specify if specimen needs to be kept frozen);
 - Preference of STAT reporting (call or fax as well as name and numbers).
- Send only STAT specimens with the STAT courier. Routine, non-STAT specimens should be sent with the routine courier.
- STAT testing is only performed on one-time orders.
- Standing orders will not be accepted as STAT if the patient is sent to a Labcorp patient service center to be collected. You may request "same-day" testing for routine testing on a patient's standing order by noting "same-day" on the original test request form.

STAT TESTING

Fort Worth, TX

Test Name	Test No.
Alanine Aminotransferase (ALT/SGPT)	001545
Albumin	001081
Alkaline Phosphatase	001107
Amylase	001396
Aspartate Aminotransferase (AST/SGOT)	001123
Bilirubin, Direct	001222
Bilirubin, Total	001099
Bilirubin, Total and Direct	001214
Bilirubin, Total, Neonatal	015602
Calcium	001016
Carbon Dioxide, Total	001578
Chloride	001206
Complete Blood Count (CBC) With Differential, Reflex to Peripheral Smear Review	005009
Creatine Kinase (CK), Total	001362
Creatinine	001370
D-Dimer	115188
Digoxin	007385
Electrolyte Panel	303754
Erythrocyte Sedimentation Rate	005215
Estradiol*	004515
Fetal Fibronectin	120857
Follicle-stimulating Hormone (FSH)*	004309
Glucose	001032
Glucose, Plasma	001818
Hemoglobin (Hb) + Hematocrit	031088
Hepatic Function Panel (7)	322755
Human Chorionic Gonadotropin (hCG), β -Subunit, Qualitative	004556

Test Name	Test No.
Human Chorionic Gonadotropin (hCG), β -Subunit, Quantitative	004416
Lactic Acid Dehydrogenase (LD)	001115
Lipase	001404
Luteinizing Hormone (LH)*	004283
Magnesium	001537
Metabolic Panel (8), Basic	322758
Metabolic Panel (14), Comprehensive	322000
Partial Thromboplastin Time (PTT), Activated	005207
Phenytoin, Serum or Plasma	007401
Phosphorus	001024
Platelet Count	005249
Potassium	001180
Pregnancy Test, Urine	004036
Progesterone*	004317
Protein, Total	001073
Prothrombin Time (PT)	005199
Renal Function Panel	322777
