

Labcorp Diagnostic Immunohistochemical Staining Program

To order, specify the option required, and supply the clinical information below.

- 484006 - Option I: Slides and controls are returned for your interpretation.**
- 484006 - Option II: Slides and controls are returned with an immunostain interpretation.**
- 980004 - Option IV: Full surgical pathology consultation**

Note: Cytokeratin 903, Racemase, lymphoma markers and infectious disease stains are available only as Option I or Option IV (full consult). These stains cannot be ordered as Option II.

Patient's Name _____ Surgical Pathology Case Number: _____

Requesting Physician _____ Telephone: _____

For program options II and IV, please submit an H&E slide and complete the following information:

Differential Diagnosis: _____

Site of Specimen: _____

Clinical Information: _____

Alphabetical Index

A1AT (α_1 -antitrypsin)
Adipophilin
ALK-1
B72.3
BAP-1
BCL-2
BCL-6
BerEp4
Beta-Catenin
b-HCG
CA125 (OC125)
CA19-9
Calponin
Calretinin
CD1a
CD3 (poly) and (mono)
