One-source laboratory provider from preconception to delivery

LabCorp
Laboratory Corporation of America

Integrated GENETICS
LabCorp Specialty Testing Group
We take health care personally—for you and your patients.

LabCorp—along with Integrated Genetics, a member of LabCorp’s Specialty Testing Group—understands the needs of your OB/GYN practice. Through a dedicated pregnancy program for laboratory services, our goal is to make each step in the pregnancy continuum as seamless as possible for you and your patients.

Patient Education
Patient education is an important piece of your partnership with your patients, and LabCorp has many resources available to assist your patients during the pregnancy journey.

Patient Education Offerings
LabCorp offers patient-friendly, easy-to-read materials that cover a variety of topics:

- **Patient information**
  Maternal serum screening, routine tests, sexually transmitted diseases, vaginitis. (Many pieces are also available in Spanish.)

- **CarePath report options**
  Patient counseling reports to help patients understand their diagnosis and treatment options.

- **LabCorp Beacon**: Patient (patient web portal)
  The opportunity for your patients to interact directly with the lab via a dedicated patient web portal. Your patients can manage their schedule by making appointments online and paying bills online. They can also view, download, and print their own results, saving your office staff time with phone calls and follow-up about results.

- **Online appointment scheduling for specimen collection**
  LabCorp values your patients’ time. Patients may schedule an appointment for specimen collection at one of more than 1700 patient service centers nationwide. Patients may also visit without an appointment.

PRECONCEPTION

Patient Education Material
Single-source Solution

Count on LabCorp as your single-source solution

You can count on LabCorp for integrated services. From pathologists, scientists, customer service, information technology, specimen collection and transport teams, to quality testing, we combine all in one.

LabCorp is easy to use

- LabCorp participates in an extensive network of managed care plans.
- Patient service centers are available for specimen collection; courier services are available for in-office specimen pickup.
- Specialty customer service representatives assist with test inquiries, add-on testing, or other account service needs.
- OB/GYN-specific test request forms focus on the pregnant patient.
- Genetic counselors are available for result interpretation.

Keeping our clients up-to-date

LabCorp is committed to providing its clients with information about testing and services. You may opt-in to receive a women's health e-mail that will help keep you up-to-date with LabCorp's women's health testing and services.
Web-based connectivity and systems integration
LabCorp offers electronic connectivity solutions to assist your practice in test ordering and result delivery.

Connectivity Solutions
- **LabCorp Beacon®**
  Web-based test ordering and result delivery, mobile result delivery at your fingertips
- **Systems integration**
  Interfaces with more than 700 solutions to connect LabCorp with your EMR

Physician access to referred patients’ test results through LabCorp Beacon
Global patient search is a feature of LabCorp Beacon that allows an authorized physician to have access to lab results that may have been ordered by other physicians for a referred patient.

Global Patient Search* allows you to:
- Search for a referred patient’s lab test based on several search parameters
- Review results of the referred patient, gaining a more complete clinical picture of the patient’s health
- Minimize the time you and your staff spend requesting copies of patients’ lab results.

* For global patient search feature, a physician must have a LabCorp Beacon account, and the physician must agree to the Global Search Terms of Use. Global search is only permitted when the physician is in a treatment relationship with the patient.
Like you, LabCorp is a committed partner in your patients’ pregnancies.

Laboratory tests and services are an essential component in pregnancy, providing important information to assist you in monitoring the health of your patient and her baby. LabCorp is one of the nation’s leading women’s health laboratories and strives to be a valued partner for you in the physician/patient relationship.

**Be a part of LabCorp’s Partners in Pregnancy Program**
If you are interested in participating in this comprehensive program, please complete the following information below and return to LabCorp. You may give this card to your LabCorp representative, or drop it in the US mail. (No postage required.) You may also complete the form online at www.labcorp.com/forms/pregnancy.
